

18 December 1950

MEMORANDUM *for* RECORD

The members of the ~~Estimates~~ Staff have agreed that they are operating relatively inefficiently as a pool of individuals, each assisting the Board of Estimates on an intermittent, ad hoc basis. They propose to try to improve the efficiency of their individual performances by meeting from time to time to exchange ideas, compare experience, and discuss substantive intelligence issues involved in preparing National Intelligence Estimates. In order to inform themselves systematically and continuously about the current problems before the Board of Estimates, the Estimates Staff requests ~~that~~ ^{that} ~~be designated~~ ^{be designated} a representative to attend the morning meetings of the Board of Estimates.
